*This chart is not intended as a substitute for academic advising. Regardless of AP credits and/or college level math credits, all incoming freshmen MUST take the Math Placement Exam. During UMBC's Summer Orientation, you will meet with an academic advisor to review the math requirements and course sequence for your intended major. Your advisor will recommend your first math course, which you may take through the Summer Bridge program.

APPROVED GENERAL EDUCATION PROGRAM (GEP) COURSES

How to Use This List

The list below is a reference for new students and their academic advisors to use in selecting courses to meet general education and university requirements. A typical new student schedule will include a mix of these courses along with courses in the student's chosen major.

The courses listed have been approved by UMBC for use in specific requirement categories as shown. **The information is up to date as of April 2023.** While care has been taken to make this list accurate, the university's authoritative source of course descriptions and requirements is the Undergraduate Catalog online at catalog.umbc.edu.

Please note that not all approved courses are offered every semester. To find out which of these courses are being offered in an upcoming term, at what times, and in what location, always consult the Schedule of Classes online. You can use the search function in the Schedule of Classes to isolate the classes that meet a particular category, such as "GEP Social Science." To do this, leave the "Course Subject" blank. For additional insight into when a course may be taught again, contact the academic department offering the course.

Many general education courses are open to all entering students, however, some courses have "enrollment requirements," such as other courses that must have been completed previously or certain placement test results. To find out whether a course of interest to you has prerequisites or other requirements, look it up in the Schedule of Classes or the Undergraduate Catalog online.

The list is in alphabetical order and is designed to help you find a course in a given category, such as Arts and Humanities or Writing Intensive.

Within each category, we have grouped the courses by academic department or program offering the course. Within each department, courses are shown in numerical order.
